ART PARIS 2019 — PROMESSES SECTION

From April 4 to 7, 2019, Galerie Intervalle will participate in Art Paris at the Grand Palais, in the Promesses section, dedicated to young galleries and emerging artists. For this edition, Intervalle is presenting three artists from its program: Julien Mignot, Elsa Leydier, and Julien Mauve.

The booth brings together three series that illustrate the diversity of the artistic approaches championed by the gallery: Screenlove by Julien Mignot, Transatlantica by Elsa Leydier, and After Lights Out by Julien Mauve. With Screenlove, Mignot explores our relationship with screens and new forms of representing reality. In Transatlantica, Leydier examines the historical and cultural narratives that shape territories and their representations. With After Lights Out, Mauve continues his work on the transformations of our environment and the imaginaries associated with an uncertain future.
