The Joan Font and Intervalle galleries present Anatomy of Being, a group exhibition as part of Mois de la Photo. It brings together a dozen artists from both galleries, Stéphane Couturier, Claudio Cravero, Prince Gyasi, Philippe Gronon, Lucas Leffler, Julien Mauve, Julien Mignot, Jean-Vincent Simonet, as well as guests.

The artists featured use the medium of photography to transcend it. Photography is not limited to reproducing reality: it plays with light, textures, and shapes to offer a unique sensory experience. By combining organic and figurative approaches, the works in this exhibition transcend simple representation and invite the viewer to perceive the world differently.
